

# UROSTOMY ASSOCIATION

INCORPORATING ALL TYPES OF URINARY DIVERSION

Registered charity no.: England & Wales 1131072;  
Scotland SCO47740

## Car seat belt protection

The list below is a selection which may assist you in the management of your Urostomy. The Urostomy Association does not recommend individual companies or products.

### Clippasafe Bump Belt

This is a product made for pregnant women, but it may also be suitable for people with a Urostomy. The Bump Belt's seat pad fastens the vehicle seatbelt as normal, ensuring that the lap portion could possibly be positioned away from the stoma (depending on location). The Bump Belt's elasticated flaps are then simply secured over the lap portion of the seatbelt.

### Care4Car

CarPoint Seat Belt Stopper – fits around the seat belt, and allows you to pull out some slack so you can drive in comfort and without affecting the operation of the seat belt.

CarPoint Belt Clip – relieves seat belt discomfort which can be caused by the seat belt rubbing.

### StomaWise

Comfy Drive – works by having a sponge block either side of your stoma pouch, which holds the lap part of the seatbelt away from the stoma, available in a range of colours.
