INCORPORATING ALL TYPES OF URINARY DIVERSION

Clothing, Lingerie and Swimwear

We are often asked where people can purchase clothing, such as underwear and high-waisted trousers. Most people can wear whatever they wish, but some people may find trousers with a high waist more comfortable, for example.

If you are looking for support garments for a parastomal hernia, please see our separate leaflet for this.

We do not recommend individual companies or their products, so the following is a selection of companies that you may find helpful.
